

# SOHAM MISTRY

Pune, Maharashtra

☎ +91 8956285029 | ✉ [mistry.sohamm@gmail.com](mailto:mistry.sohamm@gmail.com) | 🔗 [linkedin.com/in/soham-mistry](https://www.linkedin.com/in/soham-mistry) | 🐙 [github.com/SohamMistry01](https://github.com/SohamMistry01)

## Skills

- **AI/ML:** Machine Learning, Deep Learning, Natural Language Processing, Data Analysis, Data Visualization
- **Generative AI:** Large Language Models (LLMs), AI Agents, Prompt Engineering, Retrieval Augmented Generation, Embeddings, Vector Databases, Model Context Protocol, LLM Evaluation
- **Programming:** Python, SQL, HTML, CSS, JavaScript
- **Frameworks:** LangChain, LangGraph, FastAPI, Django, Scikit-learn, XGBoost, TensorFlow, CrewAI, Docker, Git/GitHub
- **Soft Skills:** Leadership, Team Management, Event Planning, Event Management

## Education

### Savitribai Phule Pune University

2022 - 2026

BTech - Computer Engineering

Pune

- CGPA: 8.44

## Experience

### Scoreazy EduTech Pvt. Ltd.

Aug 2025 – Present

Founding Software & AI Engineer

Mumbai (Remote)

- Architected and built the startup's flagship student-facing web platform from scratch using Django, supporting onboarding of 150+ early users.
- Engineered 10+ FastAPI microservices, integrating RAG pipelines, ML workflows and operational APIs, automating business processes and reducing internal manual workload by 50%.
- Led end-to-end mobile development and successfully published the live Android app on the Google Play Store using Flutter and WebView.
- Managed database operations, full-stack UI workflows, live bug fixes and deployment infrastructure using Docker and continuous integration testing (pytest, Postman).
- Currently designing and implementing the full-stack mentor-side management portal to expand platform capabilities.

## Projects

### JeevanYaan: AI-Powered Career & Wellness Companion | Django, LangGraph, RAG, CatBoost

- Built a full-stack GenAI platform with 8 AI modules for career guidance and wellness, using Django aligned with SDG-3 & SDG-4.
- Trained a CatBoost classifier on 12 lifestyle features for mental health prediction (96% F1-score), coupled with an LLM expert review chain for actionable insights.
- Designed agentic workflows with LangGraph - a Search → Scrape → Summarize research pipeline, Map-Reduce fan-out for parallel multi-file processing, and Tavily web-augmented career planning with graceful fallbacks.
- Implemented RAG using FAISS + HuggingFace embeddings for resume analysis, with token-aware chunking, structured JSON parsing and role-based rate limiting - cutting hallucinations by 50% at 100–300ms latency.

### Health Insurance Claim Prediction | Machine Learning, Generative AI, Data Visualization

- Built an end-to-end ML system using ensemble regression with 91% accuracy for cost prediction.
- Integrated a Gemini-powered medical chatbot and interactive Plotly charts for analytics.
- Reduced manual claim assessment time by 40% through automation and predictive modeling.

## Achievements

- Winner of Bit-By-ML Kaggle competition 1st Edition, 2026.
- Winner of the inter-college state-level Rapid Fire Quiz Competition in Alacrity 2025.
- Served as Technical Secretary in CESA, leading event planning and management for over 300 students.

## Certifications

Microsoft Certified Azure AI Fundamentals (AI-900)

Columbia University: Prompt Engineering & Programming with OpenAI

Udemy: Agentic AI with LangChain and LangGraph
